SKILLS

- **Languages**:   C++, Java, C, PHP, Swift, python
- **Frontend**:   HTML, CSS, JavaScript (ES6+), BootStrap, Tailwind
- **Backend**:   NodeJs, ExpressJs, JWT, Hashing
- **Frameworks**:   Angular, React, Spring Boot, Laravel
- **Tools/Platforms**: MySQL, MongoDB, PostgreSQL, Git & Github, Bitbucket, Apache, Xampp, Postman, X-Code
- **Soft Skills**:   Leadership, Problem-Solving Skills, Team Player, Communication, Project Management, Adaptability

INTERNSHIP

Labmentix Pvt. Ltd. | *Intern*   Since Feb 2025

- It is a **3 months** unpaid internship. Get enrolled in this internship to get experience of working on real-time project.
- Developed and maintained full-stack web applications using **React, tailwind, supabase, deepgram's api** ensuring efficient and scalable solutions.
- Collaborated with cross-functional teams to design, develop, and debug **backend APIs and frontend interfaces**, improving overall application performance.
- Gained hands-on experience in **software development lifecycle (SDLC), database management, and version control (Git)** to enhance project efficiency.

PROJECTS

- **myFriendBuddy**   Apr 2025
  Created this application for the users to have their personal AI assistant. Executed this app using **Next.js**, **Tailwind**. Backend part completed with **Node** and **Express.** In addition, I used **MongoDB** as my database to save user data for authentication and authorization. Last but not least, also used **socket.io and OpenAI API** for real-time chat and AI-powered responses. This application will help the user to interact with open ai and they can also see their history chats.
  (Note: Yet to be completed. Submission date is 12 may.)
  Deployed Link: https://myfriendbuddy.vercel.app/

- **Speech-To-Text**   Mar 2025
  This is a speech-to-text application. Executed this app using **React**, **Axios**, **React-Router-Dom**, and for CSS, I used tailwind. Backend part d with **Node** and **Express.** In addition, I used **MongoDB** as my database to save user data. This application will help the user to get a text file of their speech.
  Deployed Link: https://speech22text.netlify.app/

- **Apna Bank**   Oct 2024
  Developed a banking application using "**React**" and a **user-friendly** interface. Implemented functionalities to enhance user experience and streamline banking processes. This application is for the district cooperative bank to keep a record of account holders. By working on this project, I gained a strong understanding of modern web development.
  Deployed Link: https://apnabank-4qir.onrender.com

- **Lpu Buddy**   Apr 2024
  Created this **buy and sell website** using HTML, CSS, JS, Node.js, Express.js, and a user-friendly interface. Implemented "Add to Cart" and purchase options, with an **attractive UI** to display all cart options. Gained a strong understanding of modern web development. This project is a platform for all the LPU students to make a connection and trade items like old books, old bicycles, and old electronics items at cheaper prices.
